STUDENT TEAM WEEKLY REPORT

PROJECT / FEATURE	TEAM & MENTOR	WEEK / LEADER
Question Bank & Quiz Engine [Module 8 — Security and Audit Control UI]	**TEAM ID: 2** **FACULTY MENTOR:** Mr. Rudragouda Patil	**WEEK ENDING:** 13/09/2026 **STUDENT LEADER:** Rajnandini Mane

WORK COMPLETED	CHALLENGES / RISKS	HELP NEEDED
Login Interface • Reviewed the login form and its validation behaviour. • Refined the wrong-password popup displaying the remaining login attempts. • Reviewed the account-lockout popup and its 15-minute countdown display. • Reviewed the mandatory first-time password-change modal. **Administrator Audit Log** • Refined the audit-log table within the administrator dashboard. • Reviewed activity filtering and session-duration display. • Worked on the CSV export control for audit logs. **User Management Interface** • Reviewed user creation, editing, role assignment, and account activation/deactivation controls. • Maintained the presentation of role-related information in the administrator dashboard. **Frontend API Client** • Reviewed the existing JavaScript API client for request handling and error feedback. • Reviewed the frontend handling of authentication tokens and HTTP 429 responses.	**Login Feedback:** Login failures and lockout states require clear and consistent messages. **Status:** UNDER REVIEW **Audit Log Display:** Activity information must be presented in an organized and readable format. **Status:** UNDER REVIEW	• Integration-team support for verifying login and audit-log interactions. • Sample responses for checking frontend error handling.

INTEGRATION AND COLLABORATION
• Coordinated login and audit-log UI requirements with the integration team. • Reviewed frontend API error handling and authentication-related interactions.

COMMON KPI EVIDENCES
• Wrong-password and account-lockout modals available. • First-time password-change modal available. • Administrator audit-log table includes filtering and CSV export controls. • Frontend API client includes token handling and HTTP 429 response handling.

NEXT WEEK COMMITMENTS	MENTOR RESPONSE
Review all existing frontend pages. Test form controls, dashboard navigation, and user interactions. Identify and correct frontend display or interaction issues.
