STUDENT TEAM WEEKLY REPORT

PROJECT / FEATURE	TEAM & MENTOR	WEEK / LEADER
Question Bank & Quiz Engine [Frontend Review, UI Consistency and Interaction Testing]	**TEAM ID: 2** **FACULTY MENTOR:** Mr. Rudragouda Patil	**WEEK ENDING:** 20/09/2026 **STUDENT LEADER:** Sanskruti Pawar

WORK COMPLETED	CHALLENGES / RISKS	HELP NEEDED
Administrator Dashboard • Reviewed user-management controls, role-management interfaces, and audit-log navigation. • Checked the consistency of tables, filters, and dashboard sections. **Author and Question Bank Interfaces** • Reviewed manual question entry and CSV import controls. • Checked the question preview and staged batch-management interface. • Reviewed submission-status and returned-for-edit sections. **Moderator Dashboard** • Reviewed the question-bank moderation queue. • Checked the presentation of question details, approval and return actions, and moderator feedback. • Reviewed the interface preventing moderators from approving their own submissions. **Student Dashboard** • Reviewed quiz search, department filtering, question navigation, and countdown timer displays. • Checked the presentation of completed quizzes and scorecards. **Frontend Consistency** • Reviewed common typography, buttons, form controls, tables, modals, and the maroon and gold design theme across the available pages.	Cross-Page Consistency: Common components and navigation must remain consistent across the four role-based interfaces. **Status:** UNDER REVIEW Interactive UI Behaviour: Form validation, filters, modals, and quiz controls require functional verification. **Status:** UNDER REVIEW	• Integration-team support for checking API-dependent screens. • Review of any remaining frontend issues during the project demonstration.

INTEGRATION AND COLLABORATION
• Reviewed the available frontend pages and their interactions. • Coordinated API-related UI observations with the integration team. • Checked consistency across administrator, author, moderator, and student interfaces.

COMMON KPI EVIDENCES
• Four role-based dashboards available. • Question-bank creation and moderation interfaces available. • Student quiz and scorecard interfaces available. • Login, user-management, and audit-log interfaces available. • Shared visual theme used across the frontend pages.

NEXT WEEK COMMITMENTS	MENTOR RESPONSE
• Address any remaining frontend issues identified during review. • Prepare the existing frontend screens for demonstration. • Review the major role-based workflows before final evaluation.
